

II. Ethnoecological Research Camp

18.07.2013 - 02.08.2013

AIMS AND EXPECTED RESULTS

The general objective of the camp was studying the relationship between people and the landscape, especially from an ethnoecological approach (traditional ecological knowledge, and related topics) in Sztána and Zsobok region, near Cluj.

The camp was to help university students with specific aims to prepare BSc, MSc, PhD theses / dissertation or articles.

BACKGROUND

I. Ethnoecological Reserch Camp

04. -18. 07. 2012. Gyimes

- Leadership: Zsolt Molnár, Dániel Babai
- That project was realised with the support of Pogány - havas Kistérségi Társulás, survey of habitat patches

Kalotaszeg Day - II. Ethnoecological Research Camp Workshop, 27.05.2013

(MTA Bölcsészettudományi Kutatóközpont Néprajzi Intézet)
Presentations from researchers (ethnographers, botanists, ecologists) who had previously studied this area.

PARTICIPANTS

- There were 49 people attended, 34 students + teachers, researchers
- Universities, institutions: PE-GK (14), SZTE (7), SZIE (10), PTE (2), ELTE (2), CE (1), NYME (1), Babeş-Bolyai TE (1), retired professors (3), MTA ÖK ÖBI (3), Gubanc Manufaktúra (1)

RESEARCH TOPICS

- Flora and the related folk knowledge
- Plant communities, phytosociological relevees
- Habitat mapping
- Landscape history of the past 200 years
- Forest dynamics
- Ethnozoology
- Pasturing and grazing
- Folk cropping and horticulture, weeds
- Folk fruit gardening
- Other uses of herbs and wild plants
- Folk beliefs, traditions

PROGRAMS

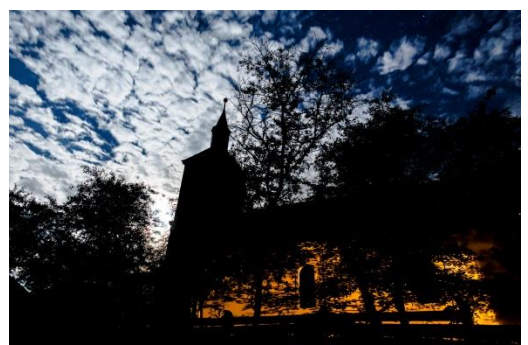

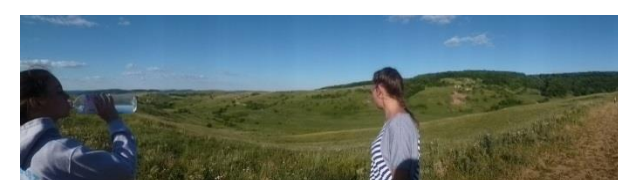

- A two-day field trip with János Péntek and Attila Szabó T.

- Sunday worship in Kalotaszeg wearing folk costume
